Financial Services Commission of Ontario

Statement of Priorities

June 2014

Message from the Chair and Chief Executive Officer

Established under the Financial Services Commission of Ontario Act, 1997 (FSCO Act), FSCO regulates insurance companies and agents; pension plans; loan and trust companies; credit unions and caisses populaires; mortgage brokerages and administrators; co-operative corporations in Ontario; and service providers who invoice auto insurers for statutory accident benefits claims. FSCO is accountable to the Minister of Finance.

FSCO's legislative mandate is to provide regulatory services that protect the public interest and enhance public confidence in the sectors it regulates. As an organization, FSCO is committed to being a progressive and fair regulator, working with stakeholders to support a strong financial services industry, and protecting the interests of financial services consumers.

FSCO is comprised of a five-member Commission, the Superintendent of Financial Services and staff, and the Financial Services Tribunal. The Financial Services Tribunal is an expert adjudicative tribunal established under the FSCO Act. The Tribunal hears applications and appeals on regulatory decisions made or proposed by the Superintendent.

Section 11 of the FSCO Act requires that FSCO publish in The Ontario Gazette and deliver to the Minister of Finance by June 30 of each year a statement setting out FSCO's proposed priorities and the reasons for adopting these priorities.

This is FSCO's 17th Statement of Priorities. It outlines FSCO's and the Tribunal's priorities and planned initiatives for the coming year, and highlights FSCO's key accomplishments in the previous year.

Philip Howell
Chief Executive Officer &
Superintendent of Financial Services

John M. Solursh
Chair
Financial Services Commission of Ontario
Financial Services Tribunal

Introduction

FSCO is required to release a Statement of Priorities each year outlining its proposed activities. Following is this year's statement, along with highlighted accomplishments from last year. FSCO's approach to fulfilling its legislated regulatory responsibilities is outlined in greater detail in its Regulatory Framework document which is posted on the FSCO website. FSCO also reports back on its core activities through its annual report. In conducting its business, FSCO always seeks to protect consumer interests and enhance public confidence in the sectors it regulates.

FSCO's Core Activities*Regulatory Policy*

FSCO advises the government on existing or potential risks and policy issues in the regulated sectors. All areas within FSCO work together to identify and define policy issues. Policy development is integral to public protection, determines resource allocation, and results from a collaborative effort that includes external consultations with stakeholders and the public.

Regulatory Coordination

FSCO promotes and plays an important role in coordinating regulatory efforts at a national level. Canadian regulators work together to coordinate activities, share information, proactively identify emerging trends and risks, look for harmonized approaches, reach consensus around solutions for common problems, and provide solutions and guidance applicable to multiple jurisdictions across the country. Coordination minimizes unnecessary duplication, potential delays related to regulatory processes, and regulatory costs through joint projects and resource sharing. FSCO works closely with other regulators, as needed, in order to achieve its legislative mandate.

Licensing and Registration

By law, individuals and businesses require licences from FSCO in order to conduct certain activities within the regulated sectors. Licensing ensures that only qualified and appropriate licensees conduct business with the public. Similarly, pension plans are required to be registered with FSCO. Licensing and registration allow for the supervision of the sectors in order to protect the public.

Filings and Applications

Once licensed or registered, regulated entities are required by law to submit information to FSCO on a regular basis. Certain transactions in the regulated sectors require FSCO's approval, and regulated entities must follow filing and application procedures to obtain approval. FSCO's ability to request information is a fundamental power and key regulatory tool. The information FSCO gathers at both the entity level and on an aggregate, systemic basis is used to develop proactive supervisory strategies and plans, including monitoring and compliance activities.

Monitoring and Compliance

Monitoring and compliance are important, ongoing supervisory activities. FSCO assesses whether regulated entities follow the law through compliance reviews. In addition to addressing specific cases of non-compliance, FSCO's focus is also on monitoring the degree of compliance in the regulated sectors as a whole. FSCO takes a risk-based approach to regulation, and is concerned with the overall potential negative impact that non-compliance cases have on regulatory outcomes.

Enforcement and Intervention

FSCO influences conduct in the regulated sectors through different strategies including, for example, education, moral suasion, partnering with stakeholders, compliance reviews, intervention, and ultimately enforcement. FSCO will employ the most appropriate enforcement action for entities that fail to comply with the law.

Alignment with Insurance Core Principles

The International Association of Insurance Supervisors' Insurance Core Principles prescribe the essential elements of a supervisory regime that provide an adequate level of policyholder protection and promote a financially sound insurance sector. FSCO aligns its insurance regulatory activities with the insurance core principles. In a review released earlier this year, the International Monetary Fund assessed FSCO as having a high level of observance with the insurance core principles. The International Monetary Fund also noted that FSCO has robust accountability frameworks in place, FSCO's licensing processes are in line with international best practices, and FSCO has a well-developed framework to combat fraud.

Strategies and Initiatives

To deliver its core regulatory services, FSCO sets high-level goals that are aligned with four broad strategies focused on effective delivery of its regulatory services to meet its regulatory responsibilities:

- Review and recommend changes to better mitigate risk
- Increase efficiency, effectiveness, and transparency
- Communicate, share knowledge, and engage stakeholders
- Coordinate with other Canadian regulators of the financial services industry

With these strategies, FSCO aims to improve the ways in which it regulates and delivers services to foster consumer protection in the financial services sectors and to protect the rights and benefits of pension plan members.

FSCO's 2014 strategies and initiatives provide a snapshot of the work that FSCO is focusing on over the next year. FSCO recognizes that the financial services sector is a dynamic and fast-paced environment, and in addition to this year's priorities, FSCO will be ready to address any emerging regulatory needs in the future.

Strategy 1: Review and recommend changes to better mitigate risk

FSCO's risk-based regulatory approach allows it to allocate resources towards matters that pose the highest risks to consumers and pension plan members. FSCO will continue to strengthen its regulatory approach with a number of initiatives to mitigate risks in the financial services sector.

1.1 Licensing Business Systems and Business Practices of Service Providers

In the 2013 Ontario Budget, the government committed to take further action to tackle fraud in the auto insurance sector. Among other measures, the government expanded FSCO's mandate to include the licensing and regulation of the business systems and business practices of healthcare service providers that directly invoice auto insurers for statutory accident benefits. On June 1, 2014, FSCO launched a licensing regime to reduce fraudulent billing practices in the sector. Healthcare service providers will be required to be licensed as of December 1, 2014, in order to continue billing insurance companies directly.

1.2 Develop Minor Injury Treatment Protocol

The scientists and medical experts retained by FSCO to develop an evidence-based protocol are continuing their literature reviews. Ultimately, they will recommend a protocol to treat auto accident claimants who sustain minor injuries. The protocol will inform the Superintendent's consideration of a revised Minor Injury Guideline. A revised Minor Injury Guideline will be consistent with current and scientifically proven treatment for common injuries resulting from motor vehicle accidents. This will reduce disputes about benefits, and improve care provided to claimants. The recommendations from the scientists and medical experts will be presented to the Superintendent at the end of 2014.

1.3 Support the Ministry of Finance in the implementation of a Cost and Rate Reduction Strategy for auto insurance

FSCO will support the government's implementation of the Auto Insurance Cost and Rate Reduction Strategy, utilizing the powers provided to the Superintendent in existing legislation.

1.4 Conduct life insurance and mortgage broker product suitability reviews

FSCO will undertake product suitability reviews of life insurance and mortgage broker practices at the point-of-sale. FSCO plans to assess how agents/brokers respond to the financial literacy needs of their clients, and evaluate the processes used by agents/brokers to provide advice to consumers.

Strategy 2: Increase efficiency, effectiveness, and transparency

As part of FSCO's commitment to modernizing its regulatory services, FSCO is undertaking a number of reviews and service delivery improvements to keep pace with the changing financial services environment, and to promote cost-effective and efficient regulation.

2.1 Work with Ministry of Finance on statutory and system reviews

In 2013, FSCO commenced a consolidated three year review of Part VI (Auto Insurance) of the Insurance Act, and related regulations. Once the review is complete, FSCO will submit a report to the Minister of Finance in Fall 2014. FSCO will also work with the Ministry of Finance to implement the recommendations from last year's five-year review of the Mortgage Brokerages, Lenders and Administrators Act, 2006. FSCO will assist the ministry in supporting the Minister of Finance's appointee with the five-year statutory review of the Credit Unions and Caisses Populaires Act, 1994. Additionally, FSCO will work with the Ministry of Finance as required to review insurance company solvency regulation.

2.2 Design and implement an information technology Enterprise Development Program

A new web-based information management platform will provide FSCO with the required tools to effectively regulate in an increasingly challenging financial services marketplace, while providing stakeholders with centralized access to the services they expect. The new system will also provide FSCO with comprehensive and centralized information on its regulatory activities and the regulated sectors. The web-based service will provide more accurate information to help FSCO undertake its risk-based approach, leading to increased efficiency and effectiveness. This is a multi-year initiative. The first phase of the new system was launched on June 1, 2014 as part of the licensing of the healthcare service providers sector.

2.3 Work with the Ministry of Finance on the Dispute Resolution System Review implementation

In 2013, the government appointed the Honourable J. Douglas Cunningham, Q.C. to review the FSCO dispute resolution system. In early 2014, Mr. Cunningham delivered the final report to the Minister with 28 recommendations on how to best deliver dispute resolution services. The government introduced Bill 171, Fighting Fraud and Reducing Automobile Insurance Rates Act, 2014 in the Legislature on March 4, 2014.

The proposed legislation included provisions that would move authority for the dispute resolution system from FSCO to the Ministry of the Attorney General's Licence Appeal Tribunal. Bill 171 did not pass before the Legislative Assembly was dissolved and the 2014 general election was called. If the bill is re-introduced, FSCO will work with the Ministry of Finance, as required, to assist in implementing proposed changes to the dispute resolution system.

2.4 Enhance auto insurance information and analysis

FSCO will enhance the use of automobile insurance data to simplify its regulatory process and collect data to forecast future trends, including:

- Examining factors contributing to cost changes in third-party liability bodily injury, and releasing a final report on the findings in 2014.
- Reviewing actuarial data to gauge the effect of the automobile insurance reforms, and studying the effect of the reforms on automobile insurance rate levels.
- Working with the General Insurance Statistical Agency to collect Ontario's 2013 auto insurance statistical data, and analyzing the data to monitor automobile insurance cost changes and to review the reasonableness of automobile insurance rates.
- Reviewing the Health Claims for Auto Insurance system to determine reports necessary to provide additional information on statutory accident benefits treatment trends.

2.5 Work with the Ministry of Finance on initiatives in the pension sector

Over the past year, pension reform has been a government priority and the government has put an emphasis on modernizing the retirement income system with a focus on innovation. It recently completed a consultation with stakeholders on how to implement Pooled Registered Pension Plans and announced its intention to consult on a framework for target benefit plans in Ontario. This consultation will focus initially on target benefits for multi-employer pension plans which will help in subsequently developing a framework for single-employer target benefit pension plans.

The government has also committed to making public-sector pension plans more sustainable and to introducing a conversion framework that would facilitate the conversion of single employer pension plans to a jointly sponsored model. Work has also been completed relating to the adequacy of retirement savings in Ontario and the government is considering the establishment of an Ontario Retirement Pension Plan to assist Ontarians in saving for their retirement.

FSCO will advise and support the ministry, as required, on the implementation of these new initiatives.

Strategy 3: Communicate, share knowledge, and engage stakeholders

To better communicate and share knowledge in the area of consumer protection, FSCO will implement an anti-fraud stakeholder engagement strategy, and engage consumers in the areas of financial literacy and fraud prevention.

3.1 Implement fraud awareness stakeholder engagement strategy

FSCO will work with insurance stakeholders and consumers to implement an anti-fraud awareness strategy, and provide important information to consumers on fraud in the insurance sector.

3.2 Provide information to consumers about fraud prevention

FSCO will provide valuable information to consumers about their rights and responsibilities when it comes to fraud prevention in the regulated sectors. FSCO aims to educate consumers about how they can help reduce fraud. FSCO will use a variety of tools including the use of social media to keep consumers better informed about anti-fraud activities.

3.3 Promote consumer access to financial literacy information

FSCO will promote access to educational materials for consumers, pension plan members, and youth to provide valuable information on how to increase their financial literacy when purchasing financial services products in the regulated sectors.

3.4 Review and implement requirements for usage-based auto insurance

FSCO will continue to work with the auto insurance sector to encourage innovative technologies and ensure consumers are fairly treated as more companies implement voluntary usage-based auto insurance programs.

Strategy 4: Coordinate with other Canadian regulators in the financial services industry

Coordination with other Canadian regulators in the financial services industry is a hallmark of FSCO's regulatory approach. FSCO will work with other regulators to proactively identify emerging trends and risks, look for harmonized approaches, and provide solutions and guidance applicable to multiple jurisdictions across Canada.

4.1 Develop a harmonized national life agent licence qualification standard

FSCO will support a Canadian Insurance Services Regulatory Organizations' and Canadian Council of Insurance Regulators' initiative to develop harmonized standards for life insurance licence qualification. Implementation of the program is anticipated to be in January 2016.

4.2 Provide access to information on mortgage broker disciplinary action

FSCO will work with the Mortgage Broker Regulators' Council of Canada to publish information on disciplinary actions taken against mortgage brokers and agents across Canada in one online database.

4.3 Work with other regulators on common regulatory approaches to pensions issues

FSCO will participate in a number of initiatives undertaken by the Canadian Association of Pension Supervisory Authorities:

- Develop options, including de-risking strategies and examining new pension plan designs to address current risks in the defined benefits pension plan sector; engage policy makers in their jurisdictions; and develop standards for the treatment of new de-risking strategies and pension plan designs.
- Manage and coordinate the implementation of a new agreement to establish clear rules for the administration and regulation of multi-jurisdictional pension plans.
- Review and determine if revisions are necessary to the association's Guideline No.4—Pension Plan Governance Guidelines and Self-Assessment Questionnaire.
- Support efforts related to the implementation of a multi-jurisdictional framework for Pooled Registered Pension Plans across Canada.

Highlights from 2013-14

FSCO's Initiatives in the Past Year

Auto Insurance Cost and Rate Reduction Strategy implemented

FSCO assisted the Ministry of Finance in developing the legislation and regulations that shape the government's auto insurance Cost and Rate Reduction Strategy.

Improved disciplinary model to regulate insurance agents/adjusters

FSCO undertook stakeholder consultations and marshalled stakeholder support for a new insurance agents/adjusters disciplinary model aligned with modern regulatory practices in other sectors. Bill 171 had included provisions to introduce the new model, but did not pass before the Legislative Assembly was dissolved and the 2014 general election was called. If the bill is re-introduced, FSCO will work with the Ministry of Finance, as required, to support implementation.

High level of observance of international insurance core principles achieved

In 2013, the International Monetary Fund assessed Canada's capacity to adhere to the International Association of Insurance Supervisors' Insurance Core Principles. In its 2014 Financial Sector Assessment Program reports, the International Monetary Fund's assessment demonstrated FSCO's compliance with, and a high level of observance of, the principles.

Financial hardship unlocking process streamlined

In 2014, legislative changes moved financial hardship unlocking program administration, to access locked-in retirements funds, from FSCO to financial institutions. FSCO and the Ministry of Finance worked with institutions to ensure a smooth transition.

One-window access provided to national insurance enforcement data

Canadian consumers and insurance industry participants now have access through the Canadian Insurance Regulators Disciplinary Actions database to the names of agents and firms disciplined by insurance regulators across Canada. The new database is designed to be a single point of access for enforcement decisions taken by multiple Canadian insurance regulators. FSCO played a leadership role in this joint initiative of the Canadian Insurance Services Regulatory Organizations and the Canadian Council of Insurance Regulators, which provides centralized and timely information on enforcement actions across multiple jurisdictions.

New anti-fraud resources disseminated to consumers

In June 2013, FSCO launched the Auto Insurance Fraud Hotline and Web Portal, where Ontarians can report auto insurance fraud. FSCO also partnered with the Toronto Police Service to launch a series of Public Service Announcements that raise consumer awareness about automobile insurance fraud.

Dispute resolution system

FSCO used the services of a private dispute resolution service provider to address the mediation backlog for Statutory Accident Benefits Schedule disputes. As well, various administrative changes were implemented within FSCO's mediation process to increase the volume of mediations undertaken. The mediation backlog was eliminated in August 2013.

Return on equity benchmark established

FSCO contracted two academics from the York University Schulich School of Business to review the Return on Equity (ROE) benchmark used in Ontario's auto insurance rate approval process. FSCO reviewed their recommendations and implemented a new ROE benchmark setting process that aligns the rate with cost of capital trends in the marketplace.

Mortgage broker legislation reviewed

In 2013, FSCO assisted the Ministry of Finance in supporting the Parliamentary Assistant to the Minister of Finance, Steven Del Duca to conduct a review of the Mortgage Brokerages, Lenders and Administrators Act, 2006. The review included public consultations and stakeholder roundtables on ways to strengthen the act.

Online platform on mortgage broker licensing requirements launched

FSCO worked with the Mortgage Broker Regulators' Council of Canada to launch an online platform in March 2014 that provides information on mortgage licensing requirements in multiple provinces.

Financial Services Tribunal

The Financial Services Tribunal is an expert adjudicative tribunal established under the FSCO Act. It is comprised of members appointed to the Tribunal on a part-time basis. The Tribunal is charged with hearing applications and appeals from certain decisions made or proposed by the Superintendent, or other authorized persons or entities, under a range of Ontario statutes governing financial services matters including:

- the Credit Unions and Caisses Populaires Act, 1994
- the Insurance Act
- the Loan and Trust Corporations Act
- the Mortgage Brokerages, Lenders and Administrators Act, 2006
- the Pension Benefits Act

The Tribunal's 2014 strategies and initiatives are as follows:

Strategy 1: Maintain a pool of qualified members to adjudicate hearings*Ensure appropriate expertise is available and allocated to staff panels appointed to hear Tribunal matters*

The scope of matters qualifying for an application or appeal to the Tribunal continues to expand, resulting in an increasingly diverse workload for the Tribunal. The Tribunal Chair will work with the Ministry of Finance and the Public Appointments Secretariat towards the appointment of additional members to ensure appropriate expertise is available and allocated to staff panels appointed to hear Tribunal matters.

Arrange for supplementary training as required

The Tribunal will focus its training on the legislative changes in the Insurance Act dealing with the licensing of service providers and regulation of their business practices. There are also other changes which have been proposed but not yet enacted, and that may affect the need for additional training.

Strategy 2: Expand dialogue with members of the legal profession*Continue consultations with the Tribunal's Legal Advisory Committee*

The Tribunal will continue its consultations with the Legal Advisory Committee on matters affecting hearing processes.

Strategy 3: Update Tribunal practices and procedures*Refine service standards*

The Tribunal will continue to develop and refine service standards.

Review and update practices and procedures which may require revisions as a result of legislative changes for the licensing of service providers and regulation of their business practices

The Tribunal is reviewing new legislation and related regulations to determine how those may impact the Tribunal's practices. Its rules, forms and procedures will be reviewed for any necessary revisions.

Develop an in-house orientation program for new members

In-house training focusing on specific Tribunal practices will be provided to new members. The training supplements the mandatory adjudicator program provided by the Society of Ontario Adjudicators and Regulators, where new appointees learn the goals and principles of the administrative justice system and practical adjudication skills.

Commission des services financiers de l'Ontario

Énoncé des priorités pour 2014

Juin 2014

Message du président du conseil et du directeur général

Créée en vertu de la Loi de 1997 sur la Commission des services financiers de l'Ontario (Loi sur la CSFO), la CSFO réglemente les compagnies et les agents d'assurance, les régimes de retraite, les sociétés de prêt et de fiducie, les credit unions et les caisses populaires, les courtiers et les administrateurs d'hypothèques, les coopératives en Ontario et les fournisseurs de services qui facturent des indemnités d'accident légales aux assureurs automobiles. La CSFO relève du ministre des Finances.

Le mandat de la CSFO défini par la loi consiste à fournir des services de réglementation afin de protéger l'intérêt public et d'accroître la confiance du public dans les secteurs réglementés. La CSFO a pris l'engagement d'être un organisme de réglementation moderne et équitable, qui collabore avec les intervenants afin de soutenir un solide secteur des services financiers et de protéger les intérêts des utilisateurs de services financiers.

La CSFO est composée de la Commission, qui compte cinq membres, du surintendant des services financiers et de son personnel, ainsi que du Tribunal des services financiers. Le Tribunal des services financiers (TSF) est un tribunal spécialisé d'arbitrage établi en vertu de la Loi sur la CSFO. Le TSF reçoit les requêtes et les appels relatifs aux décisions rendues ou proposées par le surintendant des services financiers.

L'article 11 de la Loi sur la CSFO exige que la CSFO publie dans la Gazette de l'Ontario et remette au ministre des Finances, au plus tard le 30 juin de chaque année, un énoncé des priorités qu'elle se propose de suivre et des motifs de l'adoption de ces priorités.

Le présent document constitue le 17^e Énoncé des priorités de la CSFO. Il énonce les priorités et les initiatives que la CSFO et le TSF comptent réaliser au cours du prochain exercice et donne un aperçu des principales réalisations de la dernière année.

Introduction

Chaque année, la CSFO est tenue de publier un énoncé des priorités qu'elle se propose de suivre pendant l'exercice financier. L'énoncé des priorités qui suit met en relief les défis de cette année, ainsi que les progrès accomplis depuis le dernier exercice. La démarche adoptée par la CSFO pour respecter les obligations que lui impose la loi en matière de réglementation est décrite en détail dans le document sur son cadre réglementaire, accessible sur le site Web de la CSFO. La CSFO présente également ses activités de base dans son rapport annuel. En poursuivant sa mission, la CSFO cherche toujours à protéger les intérêts des consommateurs et à accroître la confiance du public dans les secteurs qu'elle réglemente.

Activités de base de la CSFO*Politique de réglementation*

La CSFO conseille le gouvernement sur les risques réels ou potentiels et les enjeux liés aux politiques qui touchent les secteurs réglementés. Tous les domaines de la CSFO travaillent ensemble à définir les enjeux liés aux politiques. Essentielle à la protection du public, l'élaboration de politiques détermine la répartition des ressources et résulte d'une démarche de collaboration qui comprend des consultations externes avec les intervenants et le public.

Coordination de la réglementation

La CSFO joue un rôle déterminant dans la coordination des efforts en matière de réglementation à l'échelle nationale. Les organismes de réglementation canadiens collaborent à la coordination des activités, au partage de l'information, à la définition proactive de tendances et de risques émergents, à la recherche d'approches harmonisées, à l'établissement de consensus autour de solutions à des problèmes communs, de même qu'à l'élaboration de solutions et d'orientations applicables à divers territoires de compétence partout au pays. La coordination permet de réduire les chevauchements inutiles, les éventuels retards liés aux processus de réglementation et les coûts réglementaires grâce à des projets conjoints et au partage des ressources. La CSFO travaille en étroite collaboration avec les autres organismes de réglementation, au besoin, afin de réaliser le mandat qui lui est conféré par la loi.

Permis et enregistrement

La loi exige que les particuliers et les sociétés obtiennent un permis auprès de la CSFO pour mener certaines activités dans les secteurs réglementés. Ce mécanisme de délivrance de permis permet de s'assurer que seules des personnes compétentes et titulaires d'un permis font affaire avec le public. Les régimes de retraite doivent aussi être enregistrés auprès de la CSFO. Les permis et l'enregistrement favorisent un meilleur contrôle des secteurs, renforçant ainsi la protection du public.

Dépôts de documents et demandes

Une fois qu'elles ont obtenu leur permis ou procédé à leur enregistrement, les entités réglementées sont tenues par la loi de fournir régulièrement de l'information à la CSFO. Certaines opérations dans les secteurs réglementés exigent l'approbation de la CSFO, et les entités réglementées doivent suivre des procédures de dépôt de documents et de demande pour obtenir cette approbation. La capacité de la CSFO de demander des renseignements est un pouvoir

fondamental et un outil réglementaire primordial. Les renseignements que recueille la CSFO auprès de chaque entité et ceux qu'elle collige de manière systémique servent à mettre au point des stratégies et des plans de supervision proactifs, comprenant des activités de surveillance et de conformité.

Surveillance et conformité

La surveillance et la conformité sont des activités importantes de supervision continue. La CSFO détermine si les entités réglementées respectent la loi au moyen de vérifications de la conformité. En plus de s'attaquer à des cas précis de non-conformité, la CSFO se concentre également sur la surveillance de la conformité dans l'ensemble des secteurs réglementés. La CSFO applique une approche fondée sur le risque à l'égard de la réglementation, et se préoccupe de l'incidence négative potentielle qu'ont les cas de non-conformité sur les résultats en matière de réglementation.

Application de la loi et intervention

La CSFO influence la conduite des secteurs réglementés au moyen de différentes stratégies, dont l'éducation, la persuasion, le partenariat avec les intervenants, les vérifications de la conformité, l'intervention et, en dernier recours, l'application de la loi. La CSFO prend les mesures d'application de la loi les plus appropriées à l'égard des entités qui ne se conforment pas à la loi.

Conformité avec les Principes de base en matière d'assurance

Les Principes de base en matière d'assurance de l'Association internationale des contrôleurs d'assurance précisent les éléments essentiels d'un régime de contrôle qui permettent un degré de protection adéquat des assurés et favorisent la solidité financière du secteur de l'assurance. La CSFO mène ses activités de réglementation de l'assurance en conformité avec les Principes de base en matière d'assurance. Dans un rapport publié plus tôt cette année, le Fonds monétaire international (FMI) a confirmé le haut niveau de conformité de la CSFO avec les Principes de base en matière d'assurance. Le FMI a également souligné que la CSFO avait mis en place un solide cadre de responsabilisation, des processus de délivrance de permis conformes aux pratiques exemplaires internationales et un cadre bien conçu de lutte contre la fraude.

Stratégies et initiatives

Pour fournir ses services de réglementation de base, la CSFO s'est fixé des objectifs ambitieux qui correspondent à quatre grandes stratégies axées sur la prestation efficace de ses services de réglementation en conformité avec ses responsabilités en matière de réglementation :

- Procéder à des examens et recommander des changements pour réduire le risque
- Accroître l'efficacité, l'efficacé et la transparence
- Communiquer, diffuser l'information et mobiliser les intervenants
- Coordonner son action avec celle des autres organismes de réglementation canadiens du secteur des services financiers

La CSFO mise sur ces stratégies pour améliorer les mécanismes de réglementation et la prestation des services, et ainsi favoriser la protection du public dans le secteur des services financiers et protéger les droits et les indemnités des participants à un régime de retraite.

Les stratégies et les initiatives de la CSFO pour 2014 donnent un aperçu des travaux qui occuperont la CSFO au cours du prochain exercice. Consciente du dynamisme et de l'évolution rapide du secteur des services financiers, la CSFO sera prête à répondre à tout nouveau besoin en matière de réglementation, en plus des priorités établies pour cette année.

Stratégie 1 : Procéder à des examens et recommander des changements pour réduire les risques

L'approche réglementaire fondée sur le risque adoptée par la CSFO permet à celle-ci d'affecter des ressources aux situations qui présentent les risques les plus élevés pour les consommateurs et les participants à un régime de retraite. La CSFO continuera de renforcer son approche réglementaire à l'aide de différentes initiatives visant à réduire les risques liés au secteur des services financiers.

1.1 Systèmes de délivrance de permis aux entreprises et pratiques commerciales des fournisseurs de services

Dans le budget de l'Ontario de 2013, le gouvernement s'est engagé à mettre en place d'autres mesures pour contrer la fraude dans le secteur de l'assurance-automobile. Entre autres mesures, le gouvernement a élargi le mandat de la CSFO pour y inclure la délivrance de permis et la réglementation des systèmes et des pratiques commerciales des fournisseurs de services de soins de santé qui facturent directement des frais aux assureurs automobiles pour les indemnités d'accident. Le 1^{er} juin 2014, la CSFO a instauré un régime de délivrance de permis pour réduire les pratiques de facturation frauduleuses dans le secteur. Les fournisseurs de services de soins de santé devront obtenir un permis d'ici le 1^{er} décembre 2014 afin de pouvoir continuer de facturer directement les compagnies d'assurance.

1.2 Élaborer un Protocole de traitement des blessures légères

Les scientifiques et les experts en médecine retenus par la CSFO afin d'élaborer un protocole fondé sur les preuves poursuivent l'examen de la documentation. Ils recommanderont par la suite un protocole pour traiter les blessures légères résultant d'un accident d'automobile. Le protocole guidera le surintendant dans la préparation d'une Ligne directrice révisée sur les blessures légères. Une Ligne directrice révisée sur les blessures légères sera conforme aux données scientifiques actuelles relatives au traitement des blessures résultant d'un accident d'automobile. Cela contribuera à limiter les différends quant aux indemnités, en plus d'améliorer la qualité des soins. Les scientifiques et les experts en médecine soumettront leurs recommandations au surintendant à la fin de 2014.

1.3 Appuyer le ministère des Finances dans la mise en œuvre d'une stratégie de réduction des coûts et des taux de l'assurance-automobile

La CSFO appuiera la mise en œuvre de la stratégie de réduction des coûts et des taux de l'assurance-automobile du gouvernement, en utilisant les pouvoirs conférés au surintendant par la loi actuelle.

1.4 Examiner le caractère adéquat des produits d'assurance vie et des produits hypothécaires offerts par les courtiers

La CSFO examinera le caractère adéquat des produits d'assurance vie et des produits hypothécaires offerts par les courtiers aux points de vente. La CSFO évaluera la façon dont les agents/courtiers répondent aux besoins de leurs clients en matière de littératie financière, et passera en revue les processus suivis par les agents/courtiers pour conseiller les consommateurs.

Stratégie 2 : Accroître l'efficacité, l'efficacité et la transparence

Dans le cadre de son engagement à moderniser ses services de réglementation, la CSFO effectue de nombreux examens et améliore la prestation de ses services afin de refléter l'évolution du secteur des services financiers et de promouvoir une réglementation efficace et efficiente.

2.1 Travailler avec le ministère des Finances dans le cadre des examens prescrits par la loi et des examens du système

En 2013, la CSFO a entrepris un examen triennal regroupé de la partie VI (Assurance-automobile) de la Loi sur les assurances et des règlements connexes. La CSFO présentera un rapport au ministère des Finances lorsque cet examen sera terminé, à l'automne 2014. La CSFO collaborera également avec le ministère des Finances à la mise en œuvre des recommandations découlant de l'examen quinquennal de la Loi de 2006 sur les maisons de courtage d'hypothèques, les prêteurs hypothécaires et les administrateurs d'hypothèques qui a été réalisé l'an dernier. La CSFO aidera le représentant du ministère des Finances à effectuer l'examen quinquennal obligatoire de la Loi de 1994 sur les caisses populaires et les credit unions. De plus, la CSFO collaborera avec le ministère des Finances, au besoin, à l'examen de la réglementation sur la solvabilité des compagnies d'assurance.

2.2 Concevoir et mettre en œuvre un Programme d'expansion des entreprises de technologie de l'information

Une nouvelle plateforme de gestion de l'information sur le Web fournira à la CSFO les outils nécessaires pour réglementer efficacement un marché des services financiers de plus en plus complexe, tout en donnant aux intervenants un accès centralisé aux services dont ils ont besoin. Le nouveau système procurera aussi à la CSFO des renseignements complets et centralisés sur ses activités de réglementation et les secteurs réglementés. Le service Web fournira une information plus précise pour aider la CSFO à mettre en œuvre son approche fondée sur le risque, ce qui accroîtra l'efficacité et l'efficacité. Cette initiative s'étalera sur plusieurs années. La phase 1 du nouveau système a été lancée le 1^{er} juin 2014 dans le cadre de la délivrance de permis dans le secteur des fournisseurs de services de soins de santé.

2.3 Travailler en collaboration avec le ministère des Finances à la mise en œuvre de l'examen du système de règlement des différends de l'assurance-automobile en Ontario

En 2013, le gouvernement a annoncé la nomination de l'honorable J. Douglas Cunningham c. r. pour diriger un examen du système de règlement des différends de la CSFO. Au début de 2014, M. Cunningham a remis au ministre le rapport final décrivant 28 recommandations en vue de l'établissement d'un nouveau système de règlement des différends au début de 2014. Le 4 mars 2014, le gouvernement a présenté le projet de loi 171 intitulé Loi de 2014 de lutte contre la fraude et de réduction des taux d'assurance-automobile.

La loi proposée comprend des modalités pour transférer au Tribunal d'appel en matière de permis du ministère du Procureur général l'autorité de la CSFO relativement au système de règlement des différends. Le projet de loi 171 n'a pas été adopté avant que l'Assemblée législative ait été dissoute et que les élections générales de 2014 aient été annoncées. Si le projet de loi est présenté à nouveau, la CSFO travaillera au besoin avec le ministère des Finances pour aider à la mise en œuvre des changements proposés au système de règlement des différends.

2.4 Améliorer l'information et l'analyse concernant l'assurance-automobile

La CSFO améliorera l'utilisation des données sur l'assurance-automobile pour simplifier son processus de réglementation et recueillir des données pour prévoir les tendances à venir, notamment :

- en passant en revue les facteurs qui contribuent aux changements tarifaires associés à la garantie Responsabilité civile – Lésions corporelles et en publiant un rapport final sur les conclusions en 2014;
- en étudiant les données actuarielles pour mesurer l'effet des réformes de l'assurance-automobile et évaluer leur incidence sur les taux d'assurance-automobile;
- en travaillant avec l'Agence statistique d'assurance générale pour recueillir des données statistiques sur l'assurance-automobile en Ontario en 2013 et analyser les données afin de suivre les variations des coûts d'assurance-automobile et s'assurer que les taux d'assurance-automobile sont raisonnables;
- en examinant le Système de demandes de règlement pour soins de santé liés à l'assurance-automobile, afin de déterminer les rapports à établir pour fournir les renseignements supplémentaires sur les tendances en matière de traitement des indemnités d'accident.

2.5 Collaborer avec le ministère des Finances à des initiatives visant le secteur des régimes de retraite

Au cours de la dernière année, la réforme des régimes de retraite a été une priorité et le gouvernement s'est concentré à moderniser le régime de revenu de retraite en mettant l'accent sur l'innovation. Le gouvernement vient de terminer une consultation auprès des intervenants sur la mise en commun des actifs des régimes de retraite et a annoncé son intention de tenir une consultation sur un cadre visant l'établissement de régimes de retraite à prestations cibles en Ontario. Cette consultation se concentrera d'abord sur les régimes de retraite à prestations cibles interentreprises, qui serviront ensuite de base au développement d'un cadre pour les régimes de retraite à prestations cibles à entreprise unique.

Le gouvernement s'est aussi engagé à améliorer la viabilité des régimes de retraite dans le secteur public et à présenter un cadre pour faciliter la conversion des régimes de retraite à entreprise unique en modèle financé conjointement. Des travaux ont également été faits relativement à la suffisance de l'épargne-retraite en Ontario, et le gouvernement envisage d'établir un régime de retraite pour l'Ontario afin d'aider le Ontariens à épargner en vue de leur retraite.

La CSFO conseillera et appuiera le ministère, au besoin, dans la poursuite de ces initiatives.

Stratégie 3 : Communiquer, diffuser l'information et mobiliser les intervenants

Pour mieux communiquer et diffuser l'information sur la protection des consommateurs, la CSFO mettra en place une stratégie de mobilisation des intervenants à l'égard de la fraude et sensibilisera les consommateurs à l'importance d'accroître leurs connaissances financières et de prévenir les fraudes.

3.1 Mettre en œuvre une stratégie de sensibilisation à la fraude et de mobilisation des intervenants

La CSFO travaillera avec les consommateurs et les intervenants du secteur de l'assurance au déploiement d'une stratégie de sensibilisation à la fraude et fournira des renseignements importants aux consommateurs sur la fraude dans le secteur de l'assurance.

3.2 Fournir des renseignements aux consommateurs sur la prévention de la fraude

La CSFO fournira de précieux renseignements sur les droits et les responsabilités des consommateurs en ce qui concerne la prévention de la fraude dans les secteurs réglementés. La CSFO souhaite informer les consommateurs sur ce qu'ils peuvent faire pour réduire la fraude. La CSFO utilisera un éventail d'outils, y compris les médias sociaux, afin de tenir les consommateurs au courant de ses activités de lutte contre la fraude.

3.3 Promouvoir l'acquisition de connaissances financières par les consommateurs

La CSFO favorisera l'accès des consommateurs, des participants à un régime de retraite et des jeunes à du matériel pédagogique, pour les aider à améliorer leurs connaissances financières lorsqu'ils achètent des produits ou des services financiers dans les secteurs réglementés.

3.4 Examiner et appliquer les exigences en matière d'assurance-automobile fondée sur l'usage

La CSFO continuera de travailler avec le secteur de l'assurance-automobile afin d'encourager les technologies novatrices et de s'assurer que les consommateurs sont traités équitablement au moment de la mise en œuvre de programmes de tarification de l'assurance-automobile fondée sur l'usage.

Stratégie 4 : Coordonner son action avec celle des autres organismes de réglementation canadiens du secteur des services financiers

L'approche de la CSFO en matière de réglementation repose avant tout sur la coordination avec les autres organismes de réglementation canadiens du secteur des services financiers. La CSFO collaborera avec les autres organismes de réglementation à la définition proactive de tendances et de risques émergents, à la recherche d'approches harmonisées et à l'élaboration de solutions et d'orientations applicables à divers territoires de compétence partout au pays.

4.1 Élaborer une norme nationale harmonisée sur le permis d'agent d'assurance vie

La CSFO appuiera une initiative des Organisations d'encadrement des services d'assurance du Canada et du Conseil canadien des responsables de la réglementation d'assurance visant à établir des normes harmonisées sur le permis d'agent d'assurance vie. La mise en œuvre du programme est prévue pour janvier 2016.

4.2 Donner accès à des renseignements sur les mesures disciplinaires visant les courtiers hypothécaires

La CSFO collaborera avec le Conseil canadien des autorités de réglementation des courtiers hypothécaires à la mise en place d'un accès électronique unique à des renseignements sur les mesures disciplinaires visant des courtiers et des agents hypothécaires au Canada.

4.3 Travailler avec les autres organismes de réglementation à la définition d'approches réglementaires communes à l'égard des régimes de retraite

La CSFO participera à plusieurs initiatives menées par l'Association canadienne des organismes de contrôle des régimes de retraite :

- Élaborer des solutions, y compris des stratégies d'atténuation des risques et l'examen de la conception de nouveaux régimes de retraite pour réduire les risques actuels associés aux régimes à prestations déterminées; sensibiliser les décideurs dans leur territoire de compétence; et établir des normes concernant le traitement de nouvelles stratégies d'atténuation des risques et de conception de régimes de retraite.
- Gérer et coordonner la mise en œuvre d'une nouvelle entente en vue d'établir des règles claires relatives à l'administration et à la réglementation des régimes de retraite multiterritoriaux.
- Examiner et déterminer si des révisions doivent être faites à la Ligne directrice n° 4—Lignes directrices pour la gouvernance des régimes de retraite et au questionnaire d'autoévaluation de l'association.
- Soutenir les efforts d'établissement d'un cadre dans plusieurs territoires de compétence pour la mise en commun des actifs des régimes de retraite au Canada.

Faits saillants de 2013-2014**Initiatives menées par la CSFO l'année dernière***Mise en œuvre de la stratégie de réduction des coûts et des taux de l'assurance-automobile*

La CSFO a aidé le ministère des Finances à élaborer la loi et les règlements qui ont mené à la conception de la stratégie de réduction des coûts et des taux de l'assurance-automobile du gouvernement.

Amélioration du modèle disciplinaire visant les agents et les experts d'assurance

La CSFO a mené des consultations auprès des intervenants et invité ceux-ci à contribuer à la création d'un nouveau modèle disciplinaire visant les agents et les experts d'assurance, qui s'harmonise avec les pratiques de réglementation modernes en vigueur dans d'autres secteurs. Le projet de loi 171 prévoyait des dispositions pour l'introduction de ce nouveau modèle, mais il n'a pas été adopté avant que l'Assemblée législative ait été dissoute et que les élections générales de 2014 aient été annoncées. Si le projet de loi est présenté à nouveau, la CSFO collaborera avec le ministère des Finances, au besoin, pour faciliter la mise en œuvre de ce modèle.

Atteinte d'un degré élevé d'adhésion aux Principes de base en matière d'assurance

En 2013, le Fonds monétaire international (FMI) a évalué la capacité du Canada à adhérer aux Principes de base en matière d'assurance de l'Association internationale des contrôleurs d'assurance. Dans ses rapports du Programme d'évaluation du secteur financier de 2014, le FMI a confirmé le haut niveau de conformité de la CSFO avec les Principes de base en matière d'assurance.

Simplification du processus de déblocage de fonds en cas de difficultés financières

En 2014, des changements législatifs ont permis de transférer l'administration du programme de déblocage de fonds, pour avoir accès aux comptes de retraite immobilisés en cas de difficultés financières, de la CSFO aux institutions financières. La CSFO et le ministère des Finances ont travaillé de concert avec les institutions financières pour faciliter la transition.

Guichet unique de données nationales sur les mesures disciplinaires dans le secteur de l'assurance

Les consommateurs et les intervenants du secteur canadien de l'assurance peuvent maintenant consulter une base de données nationale contenant les noms des agents et des compagnies d'assurance qui ont fait l'objet d'une mesure disciplinaire imposée par un organisme canadien de réglementation de l'assurance. La nouvelle base de données propose un accès unique aux décisions disciplinaires prises par divers organismes de réglementation d'assurance canadiens. La CSFO a joué un rôle de chef de file dans cette initiative conjointe des Organismes canadiens de réglementation en assurance et du Conseil canadien des responsables de la réglementation d'assurance, qui fournit des renseignements centralisés et à jour sur les mesures disciplinaires appliquées dans divers territoires de compétence.

Nouvelles ressources offertes aux consommateurs pour prévenir les fraudes

En juin 2013, la CSFO a lancé une ligne téléphonique antifraude et un portail Web sur l'assurance-automobile, qui permettent à la population ontarienne de signaler des cas de fraude dans le domaine de l'assurance-automobile. La CSFO s'est également associée à la police de Toronto pour diffuser une série de messages d'intérêt public qui sensibilisent les consommateurs à la fraude dans le domaine de l'assurance-automobile.

Système de règlement des différends

La CSFO a eu recours à un fournisseur de services de règlement de différends privé pour réduire les retards dans le traitement des dossiers de médiation liés aux indemnités d'accident. Divers changements administratifs ont également été apportés au processus de médiation de la CSFO afin d'augmenter le nombre de médiations entreprises. L'arriéré des demandes de médiation a été éliminé en août 2013.

Établissement d'un niveau repère de rendement des capitaux propres

La CSFO a retenu les services de deux universitaires de la York University Schulich School of Business pour étudier le niveau repère de rendement des capitaux propres (RCP) utilisé dans le processus d'approbation des taux d'assurance-automobile de l'Ontario. La CSFO a étudié leurs recommandations et mis en place un nouveau processus d'établissement du niveau repère de RCP qui reflète les tendances du marché en matière de coût du capital.

Examen de la loi sur les courtiers hypothécaires

En 2013, la CSFO a aidé le ministère des Finances à soutenir M. Steven Del Luca, adjoint parlementaire du ministre des Finances, dans l'examen de la Loi de 2006 sur les maisons de courtage d'hypothèques, les prêteurs hypothécaires et les administrateurs d'hypothèques. L'examen comprenait des consultations publiques et des tables rondes rassemblant des groupes d'intérêt qui ont porté principalement sur les moyens de renforcer les dispositions de la loi.

Lancement d'une plateforme en ligne sur les exigences d'agrément des courtiers hypothécaires

La CSFO a travaillé en collaboration avec le Conseil canadien des autorités de réglementation des courtiers hypothécaires pour le lancement en mars 2014 d'une plateforme en ligne qui fournit des renseignements sur les exigences d'agrément des courtiers hypothécaires dans plusieurs provinces.

Tribunal des services financiers

Le Tribunal des services financiers (TSF) est un tribunal d'arbitrage spécialisé établi en vertu de la Loi sur la CSFO. Il est composé de membres nommés qui exercent leurs fonctions à temps partiel. Le TSF est chargé d'entendre les requêtes et les appels relatifs à des décisions rendues ou proposées par le surintendant ou par d'autres personnes ou entités autorisées en vertu de diverses lois de l'Ontario régissant les questions liées aux services financiers, dont les suivantes :

- la Loi de 1994 sur les caisses populaires et les credit unions;
- la Loi sur les assurances;
- la Loi sur les sociétés de prêt et de fiducie;
- la Loi de 2006 sur les maisons de courtage d'hypothèques, les prêteurs hypothécaires et les administrateurs d'hypothèques;
- la Loi sur les régimes de retraite.

Voici un aperçu des stratégies et des initiatives du TSF en 2014 :

Stratégie 1 : Constituer une réserve de membres compétents pour entendre les affaires

Veiller à ce que les comités de membres désignés pour entendre les affaires dont le TSF est saisi aient accès à l'expertise dont ils ont besoin

La portée des questions pouvant faire l'objet d'une requête ou d'un appel auprès du TSF s'est considérablement élargie ces dernières années, ce qui s'est traduit par une diversité accrue de la charge de travail du TSF. Le président du TSF travaillera de concert avec le ministère des Finances et le Secrétariat des nominations pour recruter des membres supplémentaires, afin de s'assurer que les comités de membres désignés pour entendre les affaires dont le TSF est saisi aient accès à l'expertise appropriée.

Offrir une formation complémentaire, au besoin

Le TSF concentrera ses efforts de formation sur les changements législatifs à la Loi sur les assurances concernant la délivrance de permis des fournisseurs de services et la réglementation de leurs pratiques commerciales. D'autres changements proposés, mais n'ayant pas encore été adoptés, pourraient avoir des répercussions sur les besoins en formation.

Stratégie 2 : Intensifier le dialogue avec les membres de la profession juridique

Poursuivre les consultations auprès des membres du Comité consultatif juridique du TSF

Le TSF poursuivra ses consultations auprès du Comité consultatif juridique sur les questions touchant le processus d'audience.

Stratégie 3 : Mettre à jour les pratiques et les méthodes du TSF

Raffiner les normes de service

Le TSF continuera de développer et de raffiner les normes de service.

Examiner et mettre à jour les pratiques et les méthodes qui pourraient exiger des révisions à la suite de changements législatifs liés à la délivrance de permis des fournisseurs de services et à la réglementation de leurs pratiques commerciales

Le TSF étudie actuellement la nouvelle loi et les réglementations connexes afin de définir leur incidence sur ses pratiques. Il passera en revue ses règles, ses formulaires et ses méthodes pour déterminer si des révisions sont nécessaires.

Concevoir un programme d'orientation interne à l'intention des nouveaux membres

Un programme interne de formation sur certaines pratiques du TSF sera offert aux nouveaux membres. La formation complète le programme d'arbitre obligatoire offert par la Society of Ontario Adjudicators et les organismes de réglementation, dans le cadre duquel les nouveaux arbitres apprennent les objectifs et les principes du système de justice administrative et améliorent leurs capacités décisionnelles.

CONFISCATION DE TERRAINS ET DE DROITS MINIERES EN RAISON D'ARRIÉRÉS D'IMPÔT

PURSUANT to the provisions of the Mining Act R.S.O. 1990, Chapter M.14, Section 197, the following list of lands and mining rights in respect of which mining land tax and costs to May 31, 2014, imposed by the said Act, are two years or more in default, notice is hereby given that unless the amount due as shown is paid on or before December 31, 2014 some or all rights and any interest may be forfeited to and vested in the Crown but shall not be open for prospecting, staking out, sale or lease until published in one issue of THE ONTARIO GAZETTE. AMENDMENTS TO ONTARIO SECURITIES COMMISSION RULE 91-507 *TRADE REPOSITORIES AND DERIVATIVES* DATA REPORTING

On July 2, 2014, amendments to Ontario Securities Commission Rule 91-507 *Trade Repositories and Derivatives Data Reporting* became effective under the *Securities Act*.

The purpose of Ontario Securities Commission Rule 91-507 *Trade Repositories and Derivatives Data Reporting* is to improve transparency in the derivatives market and to ensure that designated trade repositories operate in a manner that promotes the public interest. Derivatives data is essential for effective regulatory oversight of the derivatives market, including the ability to identify and address systemic risk and the risk of market abuse. Derivatives data reported to designated trade repositories will also support policy-making by providing regulators with information on the nature and characteristics of the Canadian derivatives market.

The amendments delay the effective date of reporting obligations and alleviate the regulatory burden of reporting obligations on certain market participants.

The full text of the amendments is available in the Ontario Securities Commission's Bulletin at (2014) 37 OSCB 6313 and on the Commission's website at www.osc.gov.on.ca.

AMENDMENTS TO ONTARIO SECURITIES COMMISSION RULE 91-507 *TRADE REPOSITORIES AND DERIVATIVES DATA REPORTING*

On September 9, 2014, amendments to Ontario Securities Commission Rule 91-507 *Trade Repositories and Derivatives Data Reporting* will become effective under the *Securities Act*.

The purpose of Ontario Securities Commission Rule 91-507 *Trade Repositories and Derivatives Data Reporting* is to improve transparency in the derivatives market and to ensure that designated trade repositories operate in a manner that promotes the public interest. Derivatives data is essential for effective regulatory oversight of the derivatives market, including the ability to identify and address systemic risk and the risk of market abuse. Derivatives data reported to designated trade repositories will also support policy-making by providing regulators with information on the nature and characteristics of the Canadian derivatives market.

The amendments permit certain market participants to benefit, in limited circumstances, from substituted compliance under CFTC Swap Data Reporting Rules. Further, the amendments modify the data reporting fields to bring them in line with international reporting standards and to facilitate the technological constraints of market infrastructure. In addition, the amendments facilitate single-sided reporting of derivatives data by permitting parties, subject to certain conditions, to use an industry standard methodology for determining the reporting counterparty.

The full text of the amendments is available in the Ontario Securities Commission's Bulletin at (2014) 37 OSCB 7559 and on the Commission's website at www.osc.gov.on.ca.
